Education

Indus Valley Public School — Noida, UP
KG – 10th Standard Boards — *2021*

White Leaf Public School — Delhi, New Delhi
11th – 12th Standard Boards — *2023*

Vellore Institute of Technology — Bhopal, MP
B.Tech, Computer Science & Engineering (Gaming Technology) — *Aug. 2023 – May 2027*

Technical Skills

Languages: Python, TypeScript **Cloud & AI:** AWS (EC2, S3, IAM), Generative AI, IBM Cloud
Frameworks & Tools: React, Flask, Scikit-Learn, Supabase, NodeMCU, PySerial
Concepts: OOP, Data Structures & Algorithms, Expectimax, Machine Learning, IoT, Design Patterns, MATLAB, Git

Experience

Software Intern — June 2026 – Nov 2026
Apollo Meister K LLP — *Noida, UP (Hybrid)*

- Working in the Software division on AI/ML-based development, IoT controllers, and industrial automation systems including SCADA, PLCs, and Servo Controls.
- Gaining hands-on experience with microcontrollers such as Raspberry Pi, ESP32, and ESP8266, along with Network WiFi Mesh and Industrial Robotics Integration.

Projects

Smart Farm Guardian | *Python, React, Supabase, ML, NodeMCU, IoT* — GitHub — *2025*

- Engineered an end-to-end farm management platform with real-time IoT sensor monitoring, ML-based crop recommendations, and automated irrigation control.
- Achieved up to **45% reduction in water consumption** vs. traditional irrigation via sensor-driven scheduling logic.

AirScope – AQI Monitor & Predictor | *React, TypeScript, Flask, Python, Scikit-Learn* — GitHub — *2026*

- Developed a full-stack air quality platform providing real-time AQI data worldwide through Open-Meteo APIs with city search and automated health recommendations.
- Implemented a **Random Forest Regressor** for AQI prediction and generated **5-day forecasts** using simulated weather trajectories.

2048 AI Autoplay | *Python, Expectimax, Heuristics, Probability* — GitHub — *2026*

- Built an autonomous 2048 player using **Expectimax search**, evaluating future game states up to three moves ahead under probabilistic tile spawns.
- Designed a weighted board-evaluation heuristic combining **empty-cell preservation, smoothness, monotonicity, and corner positioning** to optimize move selection.

Certifications & Achievements

Google IT Support Professional Certificate | *Google* — *2026*

AWS Certified Cloud Practitioner – Official Practice Set (CLF-C02) | *Amazon Web Services* — *2025*

AWS Technical Essentials | *Amazon Web Services* — *2025*

Cloud Fundamentals & Generative AI | *IBM* — *2025*

TCS CodeVita Season 13 – Global Rank **9,174** out of 200,000+ participants | *TCS* — *2026*

Leadership

Content Development Team Lead — Sept. 2025 – July 2026
SPEAR Grant Project, VIT Bhopal — *Bhopal, MP*

- Led cross-functional team delivering structured educational content for a university-sponsored grant research initiative.
- Coordinated planning, peer-review cycles, and delivery timelines; collaborated with faculty to align outputs with research goals.

Personal Details

Name: Arohi Shah **Location:** Noida, UP
